DYNO-TAB®

Power Booster

Fuel Treatment

For Gasoline & Diesel

No Bottle! No Spills! No Measuring! No Mess!

No. 45402
DYNO-TAB® 2-Tab (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton Contains 48 Cards
 Master Carton Contains 6 Inner Cartons, Total 288
 Counter Display Available on Request. Ships flat.
 Retail Ready Counter Display:
 No. 45402-RCD-12 12 Piece Counter Display

No. 45408
DYNO-TAB® 8-PACK (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton Contains 20 Cards
 Master Carton Contains 6 Inner Cartons, Total 120

No. 45405
DYNO-TAB® 6-Tab (.5 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton Contains 48 Cards
 Master Carton Contains 6 Inner Cartons, Total 288
 Counter Display Available on Request. Ships flat.
 Retail Ready Counter Display:
 No. 45405-RCD-12, 12 Piece Counter Display

No. 45476
DYNO-TAB® MINI (.25 gram each)
 Each tablet treats 4 gallons (15 liters)
 Bulk Pack:
 Inner Carton Contains 48 Cards
 Master Carton Contains 6 Inner Cartons, Total 288
 Counter Display Available on Request. Ships flat.
 Retail Ready Counter Display:
 No. 45476-RCD-12, 12 Piece Counter Display

No. 45451
DYNO-TAB® XL (1.55 grams each)
 Each tablet treats 25 gallons (100 liters)
 Bulk Pack:
 Inner Carton Contains 12 Cards
 Master Carton Contains 4 Inner Cartons, Total 48

No. 45412
DYNO-TAB® 12-Tablet Economy Pack
 (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton, Contains 12 Packs
 Master Carton, Contains 6 Inner Cartons, Total 72

No. 45271
Dyno-tab® ONE (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 No. 45271 One Tablet Each, Packed To Order
 Retail Ready:
 No. 45275 50 One-Tablet Cards In Dispenser
 Master Carton Contains 12 Dispensers, Total 600

Add one tablet to fuel tank prior to each fill-up.

- Increased Octane
- Stops Knock and Ping
- Cleaner Engine
- Reduced Smoke and Emissions
- Improved Fuel Economy

DYNO-TAB®

for Fleet & Industrial

- No. 45906 **DYNO-TAB® 6g** Treats 100 Gallons
- No. 45915 **DYNO-TAB® 15g** Treats 250 Gallons
- No. 45930 **DYNO-TAB® 30g** Treats 500 Gallons

Injector Cleaner Dyno-Tab® PLUS

Add one tablet to fuel tank prior to each fill-up to keep injectors clean.

For Gasoline and Diesel

- Keeps Injectors Clean
- Increases Power & Performance
- Stabilizes Fuel
- Helps Improve Fuel Economy

The Problem

The fuel injected vehicles of today are designed to get the maximum power and performance out of small, highly efficient engines. However, the designed power, performance and fuel efficiency depends on the injector cleanliness. When the injector becomes fouled with contaminants, the spray changes from a highly atomized fog that combines fuel and air into a dribble or inconsistent spray of liquid. The results are poor performance, reduced economy, increased smoke and a deterioration in the makeup of exhaust gases.

The Solution

Regular use of Dyno-tab® Plus keeps injectors free of contamination and operating just as they were designed to do. Dyno-tab® Plus also retards the development of fuel sludge, a leading contributor to injector fouling.

All the benefits of Dyno-tab® ...

Dyno-tab® PLUS also has all the benefits of regular Dyno-tab® Fuel Treatment. That's a proprietary combustion catalyst that improves power and performance, increases octane and reduces smoke and harmful emissions.

... PLUS Injector Cleaner

Manufactured by Chemplex Automotive Group, Inc.
 Made in the USA. EPA Registered.
 Dyno-tab® and Chemplex® are registered trademarks of Chemplex Automotive Group, Inc.

A - 87 Octane - untreated	17.57 seconds
B - 91 Octane - untreated	15.95 seconds
C - 87 Octane with Dyno-tab® Octane Booster	15.95 seconds

Track and Laboratory Tested

TRACK TEST DEMONSTRATES AN EQUIVALENT 40-POINT INCREASE -- Testing was conducted to compare timed 0 to 70 intervals using three gasolines. Gasoline A was pump grade 87 Octane Regular. Gasoline B was pump grade 91 Octane Premium. Gasoline C was the same pump grade 87 Octane as candidate A, but added to maximum levels with Dyno-tab® Octane Booster. Timed results show candidates B and C were 9.2% faster than A.

Independent Tests Prove It!

LABORATORY TESTS DEMONSTRATE 17-POINT INCREASE -- ASTM D-2699 tests, conducted at Core Laboratories in Houston, Texas compared major aftermarket bottled octane boosters to Dyno-tab® using 91 octane reference gasoline (RON). The maximum street-legal dose of 2 Dyno-tab® tablets beat 8 well-known brands. Full results are available for review at www.dynotab.com.

ULTRA

FUEL BOOSTER

Complete Multi-Functional Gas and Diesel Additive

Dyno-tab® ULTRA Fuel Booster combines the benefits of over twenty years of innovation and successful product development into a single fuel product. One ULTRA tablet provides octane, power, wear-reducing lubricity, anti-oxidant and improved fuel economy.

Maximizes Power & Performance

9.2% Increased Acceleration with Dyno-tab® From 0 to 70 MPH

A - 87 Octane Untreated	17.57 seconds
B - 91 Octane Untreated	15.95 seconds
C - 87 Octane With Dyno-tab®	15.95 seconds

Dyno-tab® is dynamometer tested to demonstrate increased power, which results in faster acceleration without the need of high octane and more expensive gasoline.

Adds Lubrication Reduces Friction & Wear

Today's gasolines are not 100% petroleum. MTBE, methanol and ethanol are all alcohols that are added to fuel to reduce pollution. While they may burn slightly cleaner, there is reduced lubricity which results in greater friction and wear in the upper cylinder engine area. Dyno-tab® ULTRA is test-proven to increase lubricity over regular pump gasoline.

Keeps Fuel Fresh Keeps Fuel System Clean

Dirty Injector Clean Injector

Impurities in fuel, including sludge, gum and varnish, will clog fuel injectors and coat critical surfaces in the combustion chamber. Dyno-tab® ULTRA retards these contaminants and keeps fuel fresh and clean-burning.

Promotes Increased Fuel Economy

In a comprehensive six-car fleet test, Dyno-tab® ULTRA improved fuel economy in select vehicles. The test protocol was designed to measure economy and emissions over 10 fill-ups, and involved a variety of domestic and foreign vehicle brands.

Independent Tests Prove It!

Note: Dyno-tab® ships under a special class as "Dangerous Goods in Excepted Quantities". UN Number 1325, Packing Group III, Class 4.1. No dangerous goods forms or fees apply when packed by our in-house certified specialists.

Master Carton Contains 6 Inner Cartons, Total 288

Any of today's fuels - unleaded gasoline, oxygenated gasoline, diesel fuel and even heating oil - begin to deteriorate after as little as 30 days. This deterioration leads to the formation of gum, varnish and other impurities in the fuel, which result in hard starts and intermittent shutdowns. Smoke and rough idling are also characteristic of contaminated, fouled fuel.

Today's fuel actually degrades faster than older generation fuels. That calls for an industrial grade fuel stabilizer to provide real protection. Dyno-tab® Fuel Stabilizer is a 100% active additive in a fast-dissolving tablet. That equals 100% protection for seasonal and stored engines.

A proprietary ingredient in Dyno-tab® Fuel Stabilizer adds power and performance and can increase fuel economy when the engine is subsequently restarted.

- LAWN MOWERS
- SNOWMOBILES
- SNOW BLOWERS
- JET-SKIS
- POWER WASHERS
- FARM EQUIPMENT
- CHAIN SAWS
- PORTABLE GENERATORS
- FUEL STORAGE CANS
- MUCH, MUCH MORE!

Dyno-tab® Fuel Stabilizer protects against the deterioration of fuel.

As an added bonus, Dyno-tab® Stabilizer protects critical fuel delivery systems against rust and corrosion during storage.

For Methanol, Reformulated, Oxygenated and Regular Fuels

Reduces Gum Formation by **86.58%**

ASTM D-873 Gum Formation Test

Dyno-tab® Fuel Stabilizer is designed for use in all stored fuel - on-board tanks or storage cans. In ASTM oxidation tests, Dyno-tab® fully stabilized fuel out-performed a leading competitor by 11.45%.

Now Available For Industrial Applications

No. 64005
DYNO-TAB® FUEL STABILIZER - 25
Each vial treats 25 gallons (95 liters)
Vial contains 5 grams.

No. 64012
DYNO-TAB® FUEL STABILIZER - 60
Each vial treats 60 gallons (227 liters)
Vial contains 12 grams.

No. 64030
DYNO-TAB® FUEL STABILIZER - 150
Each vial treats 150 gallons (568 liters)
Vial contains 30 grams.

■ For all stored or infrequently used equipment and vehicles.

■ Eliminate Hard Starts

**DYNO-TAB® Stop Leak
Single Application Pouch**
Treats up to 10 liters.

Extends Coolant Life

- ▶ Prevents Overheating
- ▶ Reduces Engine Temperature Up to 20° F
- ▶ Restores Corrosion Protection

Dyno-tab® Cooler Coolant® restores coolant life by replenishing critical coolant additives. Cooler Coolant® restores rust and corrosion protection, anti-foam properties and water pump lubricant to extend the service life of old coolant. Cooler Coolant® tablets also add special wetting agents to engine coolants (new and used) that improve heat transfer as the coolant moves over engine surfaces. The result is reduced operating temperatures.

Cleans While You Drive

- ▶ Removes Heat-Trapping Deposits
- ▶ No Need To Drain System Prior To Use
- ▶ Keeps Your System Running Cooler

Over time, radiator deposits gradually accumulate on metal and plastic surfaces inside the cooling system and form a heat-trapping barrier that retards the heat transfer ability of the cooling system fluid. Performing a radiator flush should be part of your regular vehicle maintenance to prevent deposit buildup and dangerous roadside breakdowns. Dyno-tab® Radiator Flush tablets are quick and easy to use and work while you drive. This proprietary pH balanced formula cuts system-choking deposits to restore cooling efficiency and fight overheating.

Stops Leaks Before They Happen

- ▶ Permanent Protection
- ▶ Free flowing OEM Formula
- ▶ Safe For All Cooling Systems
- ▶ Compatible With All Coolants and Water-Only Systems

Dyno-tab® Radiator Stop Leak is a proprietary formula used by a major OEM vehicle manufacturer. Added to every cooling system as vehicles roll off the production line, Dyno-tab® Radiator Stop Leak provides permanent protection against leaks and seepage. Protect your system! Even a minor amount of coolant loss can lead to a roadside breakdown and costly engine damage. Don't wait for a leak to happen! Add Stop Leak today for full protection.

Gets Windows Sparkling Clean

Phosphate Free
Biodegradable
Non-Toxic
Unscented

Formulated to remove dirt and road grime without the use of toxic methanol pre-mixes.

Cuts bug splatter, tree sap, bird droppings and road grime!

Simple To Use!
Just Add to Water

Fill windshield reservoir with clean water and add one tablet.

If preferred, add one tablet to one gallon of clean water. Pour what is needed into the windshield reservoir and use the rest to clean windows and mirrors!

No landfill waste. Each tablet replaces one bottle.

For Summer: Add up to 1 Gal/ 3.79 L water.
For Winter: In freezing conditions, add to winter formula windshield cleaner.

Fuel Stabilizer

Keeps Stored Fuel Fresh

No Bottle! No Spills! No Measuring! No Mess!

For Retail

No. 64272
DYNO-TAB® FUEL STABILIZER, 2-Tab Card
Each tablet treats 2.5 gallons (9.4 liters)
Bulk Pack:
Inner Carton Contains 48 Cards
Master Carton Contains 6 Inner Cartons, Total 288

Dyno-tab® Stabilizer ships with Snap-on® generators and gas pressure washers to Costco and other retail stores.

Visit www.alltradetools.com for more information.

No. 64274
DYNO-TAB® FUEL STABILIZER, 8-Tab Card
Each tablet treats 2.5 gallons (9.4 liters)
Bulk Pack:
Inner Carton Contains 24 Cards
Master Carton Contains 6 Inner Cartons, Total 144

No. 64276
DYNO-TAB® MARINE STABILIZER, 6-Tab Card
Each tablet treats 2.5 gallons (9.4 liters)
Bulk Pack:
Inner Carton Contains 48 Cards
Master Carton Contains 6 Inner Cartons, Total 288

Any of today's fuels - unleaded gasoline, oxygenated gasoline, diesel fuel and even heating oil - begin to deteriorate after as little as 30 days. This deterioration leads to the formation of gum, varnish and other impurities in the fuel, which result in hard starts and intermittent shutdowns. Smoke and rough idling are also characteristic of contaminated, fouled fuel.

Today's fuel actually degrades faster than older generation fuels. That calls for an industrial grade fuel stabilizer to provide real protection. Dyno-tab® Fuel Stabilizer is a 100% active additive in a fast-dissolving tablet. That equals 100% protection for seasonal and stored engines.

A proprietary ingredient in Dyno-tab® Fuel Stabilizer adds power and performance and can increase fuel economy when the engine is subsequently restarted.

- LAWN MOWERS
- SNOWMOBILES
- SNOW BLOWERS
- JET-SKIS
- POWER WASHERS
- FARM EQUIPMENT
- CHAIN SAWS
- PORTABLE GENERATORS
- FUEL STORAGE CANS
- MUCH, MUCH MORE!

Dyno-tab® Fuel Stabilizer protects against the deterioration of fuel.

As an added bonus, Dyno-tab® Stabilizer protects critical fuel delivery systems against rust and corrosion during storage.

For Methanol, Reformulated, Oxygenated and Regular Fuels

Reduces Gum Formation by **86.58%**

ASTM D-873 Gum Formation Test

Dyno-tab® Fuel Stabilizer is designed for use in all stored fuel - on-board tanks or storage cans. In ASTM oxidation tests, Dyno-tab® fully stabilized fuel out-performed a leading competitor by 11.45%.

Now Available For Industrial Applications

No. 64005
DYNO-TAB® FUEL STABILIZER - 25
Each vial treats 25 gallons (95 liters)
Vial contains 5 grams.

No. 64012
DYNO-TAB® FUEL STABILIZER - 60
Each vial treats 60 gallons (227 liters)
Vial contains 12 grams.

No. 64030
DYNO-TAB® FUEL STABILIZER - 150
Each vial treats 150 gallons (568 liters)
Vial contains 30 grams.

■ For all stored or infrequently used equipment and vehicles.

■ Eliminate Hard Starts

■ Reduce Maintenance Costs and Down Time

Gasoline	Time (0 to 70 MPH)
A - 87 Octane - untreated	17.57 seconds
B - 91 Octane - untreated	15.95 seconds
C - 87 Octane with Dyno-tab® Octane Booster	15.95 seconds

Track and Laboratory Tested

TRACK TEST DEMONSTRATES AN EQUIVALENT 40-POINT INCREASE -- Testing was conducted to compare timed 0 to 70 intervals using three gasolines. Gasoline A was pump grade 87 Octane Regular. Gasoline B was pump grade 91 Octane Premium. Gasoline C was the same pump grade 87 Octane as candidate A, but added to maximum levels with Dyno-tab® Octane Booster. Timed results show candidates B and C were 9.2% faster than A.

Independent Tests Prove It!

LABORATORY TESTS DEMONSTRATE 17-POINT INCREASE -- ASTM D-2699 tests, conducted at Core Laboratories in Houston, Texas compared major aftermarket bottled octane boosters to Dyno-tab® using 91 octane reference gasoline (RON). The maximum street-legal dose of 2 Dyno-tab® tablets beat 8 well-known brands. Full results are available for review at www.dynotab.com.

DYNO-TAB®

Power Booster

ULTRA

FUEL BOOSTER

Beats the Bottled Boosters®

Complete Multi-Functional Gas and Diesel Additive

Dyno-tab® ULTRA Fuel Booster combines the benefits of over twenty years of innovation and successful product development into a single fuel product. One ULTRA tablet provides octane, power, wear-reducing lubricity, anti-oxidant and improved fuel economy.

No. 45720
DYNO-TAB® ULTRA FUEL BOOSTER 6-Tab Card (.5 gram each)
 Each tablet treats 8 gallons (30 liters)
 Bulk Pack:
 Inner Carton Contains 48 Cards
 Master Carton Contains 6 Inner Cartons, Total 288

No. 45727
DYNO-TAB® ULTRA FUEL BOOSTER 2-Tab Card (.5 gram each)
 Each tablet treats 8 gallons (30 liters)
 Bulk Pack:
 Inner Carton Contains 125 Cards
 Master Carton Contains 6 Inner Cartons, Total 750

No. 45716
DYNO-TAB® ULTRA FUEL BOOSTER 1-Tab Pouch (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton Contains 125 Pouches
 Master Carton Contains 6 Inner Cartons, Total 750

Maximizes Power & Performance

9.2% Increased Acceleration with Dyno-tab® From 0 to 70 MPH

A - 87 Octane Untreated	17.57 seconds
B - 91 Octane Untreated	15.95 seconds
C - 87 Octane With Dyno-tab®	15.95 seconds

Dyno-tab® is dynamometer tested to demonstrate increased power, which results in faster acceleration without the need of high octane and more expensive gasoline.

Adds Lubrication Reduces Friction & Wear

Today's gasolines are not 100% petroleum. MTBE, methanol and ethanol are all alcohols that are added to fuel to reduce pollution. While they may burn slightly cleaner, there is reduced lubricity which results in greater friction and wear in the upper cylinder engine area. Dyno-tab® ULTRA is test-proven to increase lubricity over regular pump gasoline.

How fast does a fuel tablet dissolve?

Fuel Treatment Formula 5-gram tablet

17 min. 35 sec.

Keeps Fuel Fresh Keeps Fuel System Clean

Dirty Injector Clean Injector

Impurities in fuel, including sludge, gum and varnish, will clog fuel injectors and coat critical surfaces in the combustion chamber. Dyno-tab® ULTRA retards these contaminants and keeps fuel fresh and clean-burning.

Promotes Increased Fuel Economy

In a comprehensive six-car fleet test, Dyno-tab® ULTRA improved fuel economy in select vehicles. The test protocol was designed to measure economy and emissions over 10 fill-ups, and involved a variety of domestic and foreign vehicle brands.

Independent Tests Prove It!

Note: Dyno-tab® ships under a special class as "Dangerous Goods in Excepted Quantities". UN Number 1325, Packing Group III, Class 4.1. No dangerous goods forms or fees apply when packed by our in-house certified specialists.

Injector Cleaner Dyno-Tab® PLUS

Add one tablet to fuel tank prior to each fill-up to keep injectors clean.

For Gasoline and Diesel

- Keeps Injectors Clean
- Increases Power & Performance
- Stabilizes Fuel
- Helps Improve Fuel Economy

The Problem

The fuel injected vehicles of today are designed to get the maximum power and performance out of small, highly efficient engines. However, the designed power, performance and fuel efficiency depends on the injector cleanliness. When the injector becomes fouled with contaminants, the spray changes from a highly atomized fog that combines fuel and air into a dribble or inconsistent spray of liquid. The results are poor performance, reduced economy, increased smoke and a deterioration in the makeup of exhaust gases.

The Solution

Regular use of Dyno-tab® Plus keeps injectors free of contamination and operating just as they were designed to do. Dyno-tab® Plus also retards the development of fuel sludge, a leading contributor to injector fouling.

All the benefits of Dyno-tab® ...

Dyno-tab® PLUS also has all the benefits of regular Dyno-tab® Fuel Treatment. That's a proprietary combustion catalyst that improves power and performance, increases octane and reduces smoke and harmful emissions.

... PLUS Injector Cleaner

Inner Carton Contains 6
Master Carton Contains 6 Inner Cartons - Total 36

No. 55441
**DYNO-TAB® Stop Leak
Single Application Pouch**
Treats up to 10 liters.

Extends Coolant Life

- ▶ Prevents Overheating
- ▶ Reduces Engine Temperature Up to 20° F
- ▶ Restores Corrosion Protection

Dyno-tab® Cooler Coolant® restores coolant life by replenishing critical coolant additives. Cooler Coolant® restores rust and corrosion protection, anti-foam properties and water pump lubricant to extend the service life of old coolant. Cooler Coolant® tablets also add special wetting agents to engine coolants (new and used) that improve heat transfer as the coolant moves over engine surfaces. The result is reduced operating temperatures.

Cleans While You Drive

- ▶ Removes Heat-Trapping Deposits
- ▶ No Need To Drain System Prior To Use
- ▶ Keeps Your System Running Cooler

Over time, radiator deposits gradually accumulate on metal and plastic surfaces inside the cooling system and form a heat-trapping barrier that retards the heat transfer ability of the cooling system fluid. Performing a radiator flush should be part of your regular vehicle maintenance to prevent deposit buildup and dangerous roadside breakdowns. Dyno-tab® Radiator Flush tablets are quick and easy to use and work while you drive. This proprietary pH balanced formula cuts system-choking deposits to restore cooling efficiency and fight overheating.

Stops Leaks Before They Happen

- ▶ Permanent Protection
- ▶ Free flowing OEM Formula
- ▶ Safe For All Cooling Systems
- ▶ Compatible With All Coolants and Water-Only Systems

Dyno-tab® Radiator Stop Leak is a proprietary formula used by a major OEM vehicle manufacturer. Added to every cooling system as vehicles roll off the production line, Dyno-tab® Radiator Stop Leak provides permanent protection against leaks and seepage. Protect your system! Even a minor amount of coolant loss can lead to a roadside breakdown and costly engine damage. Don't wait for a leak to happen! Add Stop Leak today for full protection.

Gets Windows Sparkling Clean

**Phosphate Free
 Biodegradable
 Non-Toxic
 Unscented**

Formulated to remove dirt and road grime without the use of toxic methanol pre-mixes.

Simple To Use!
Just Add to Water

Fill windshield reservoir with clean water and add one tablet.

If preferred, add one tablet to one gallon of clean water. Pour what is needed into the windshield reservoir and use the rest to clean windows and mirrors!

No landfill waste. Each tablet replaces one bottle.

For Summer: Add up to 1 Gal/ 3.79 L water.
For Winter: In freezing conditions, add to winter formula windshield cleaner.
